Schlüsselwörter

Umfrage; DFNTerminplaner; Doodle; Google Forms; LimeSurvey

Symptom (öffentlich)

Problem (öffentlich)

The Richtlinie zur Informationssicherheit der Georg-August-Universität Göttingen/Georg-August-Universität Göttingen Stiftung Öffentlichen Rechts (Stand 24.01.2020) prohibits the processing of official data on IT systems outside the Georg-August-University of Göttingen or the GWDG in Anlage 2 A.16. This also includes data contained in surveys (e.g. with Doodle, Google Forms). Due to the audit of the data protection officer in November 2019, the use of Doodle and Google Forms for official use is also explicitly prohibited.

Lösung (öffentlich)

Services for surveys at the Georg-August-University of Göttingen Through the Georg-August-University of Göttingen or the Gesellschaft für wissenschaftliche Datenverarbeitung mbH Göttingen (GWDG), there are various services available to you that you can use as an alternative. DFNTerminplaner of the DFN-Verein The DFNTerminplaner is a generally accessible platform to carry out coordination, e.g. of appointments, easily and quickly. Data protection and data economy have a high priority at the DFNTerminplaner - so the current version of the service can be used without registration. When accessing the DFNTerminplaner, IP addresses are only stored in anonymized form and all log files are completely deleted after seven days. All data is stored exclusively in Germany at DFN-Verein, is not passed on to third parties and is not used for any other purpose. An expiration date must therefore be specified for each vote. Depending on this date, the relevant process, including all data entered for it, is automatically deleted. To use it in your web browser, simply go to https://terminplaner4.dfn.de. For more information, please visit https://www.dfn.de/dienstleistungen/dfnterminplaner/ or contact the IT department of the Faculty of Humanities. LimeSurvey of the GWDG The GWDG makes its LimeSurvey server available to all members of the Max Planck Society and the Georg-August-University of Göttingen. The setup of an account for LimeSurvey is done on request. Every activated user with a current web browser can use this service. The data is stored in the MySQL cluster of the GWDG. To use the service in your web browser, simply go to https://survey3.gwdg.de/admin. For more information, please visit https://www.gwdg.de/application-services/online-surveys or contact the IT department of the Faculty of Humanities.
